

How to check the details and statistical rules of crew return rate

Users can log in to the website of OLSaaS, and operate in "Workbench → Items Statistics" interface according to the following steps 1-4:

1. Log in to the website of OLSaaS, enter Workbench interface by default, and manually switch to "Items Statistics"

2. In Return Rate Statistics module, move the mouse over the name of the vessel, and "Ex-colleague(Same Co.)" and "Ex-colleague(Same Ship)" within 6 months will be automatically displayed. Click "View Details" in the upper right corner to enter the details interface.

The details and statistical rules of crew return rate

3. Select the time range according to your needs.

4. Click the question mark, and the "Statistical Rule of Return Rate" will pop up.

Here shows the average of Ex-colleague(Same Ship) and Ex-colleague(Same Co.)

Beside the crew name, there is a sign showing the return status.

No.	Vessel Name	Crew Name	ID No.	职务	Sign-on Date	Sign On Port	Sign-off Date	Sign Off Port
1	长胜号	仲星	32	Second Officer	2022-11-30
