

How to accept the repair settlement on the web side (Document)

After the repair settlement form is approved, according to the approval process, the document is transferred to the workbench of the personnel with acceptance authority.

Users login to the OLISS web side and default to enter the workbench interface. In the workflow task, click "Repair Settlement-Accept" to enter the Repair Settlement-Accept interface. If there are many documents in this interface, you can search for the target document through the filter bar or by entering keywords. Then click on the target document to enter the details interface. Depending on the actual situation, click "Add Settlement" or "End", and it also supports "Comment".

← Repair Settlement—Accept

If there are many documents in this interface, you can search for the target document through the filter bar or by entering keywords

Please enter settlement name
