

## Web-side display of critical equipment in stock management interface (document)

Users can log in to the OLISS Web side and follow steps 1-4 in the "Vessel Management → Equipment List" interface.

1. Click to enter the equipment list interface in turn

2. Click "Equipment Property" and select "Critical" to view critical equipment, and critical equipment will be highlighted in red

Edit

<b>Main System:</b> Air System	<b>Subsystem:</b> Starting Air System	<b>Eqpt.Group:</b> Starting Air Pipe System
<b>Eqpt No. *</b> A01	<b>Eqpt. Name *</b> 启动空气附件	<b>Manufacturer</b> Please enter
<b>Eqpt Type</b> Please enter	<b>Equipment Level</b> Please enter	<b>Drawing No.</b> Please enter
<b>Manufacture Date</b> Please select	<b>Factory No.</b> Please enter	<b>Equipment Property</b> Critical
<b>Remarks</b> Please enter		

Attachment: Upload

3. Click "Edit" on the right side of a critical equipment to add related equipment

No.	Eqpt. Name	Eqpt Type	Manufacturer	Equipment Maintenance M...	Operation

4. Click to enter the "Vessel Stock Spare Parts Stock" interface in turn

5. A red dot will appear after the critical equipment and its associated components. After moving the mouse to the equipment name, the equipment information will be displayed.

Spare Parts Name	Spare Part Code/S	Position No.	Component Name	Dept.	Unit	Min/Max Stock	Current Stock	Total Price Excluding Tax	Operation
备件2号*	2号代号	2#	123	Engine D ept.	2号单位	Min 0/Max 0	10	CNY340.00	Stock-in Stock-out More
aaaa (Nickname: aaaa)	aaaa	测试	123	Engine D ept.	a	Min 1/Max 2	13	CNY308.06	Stock-in Stock-out More
备件一号	一号代号	123	123	Engine D ept.	一号单位	Min 0/Max 0	5	CNY60.00	Stock-in Stock-out More

6. When adding spare parts stock, critical equipment and its associated components will be marked with a red dot

When the mouse moves behind the equipment name, the equipment information to which the spare part belongs will be displayed
