

How to View Safety Inspection Statistics (Document) on the Web

Users log in to the OLISS Web side, they will default to entering the workbench, switch to the "Matter Statistics" interface, find the "Safety Inspection Statistics" chart, click "View Details" in the upper right corner to enter the safety inspection statistics interface, and can search for the target vessel through the filter bar. The default date is last month. When the mouse hovers over a specific vessel, the detailed quantity of safety inspection results will automatically be displayed. Clicking the sorting button allows for ascending/descending sorting of each detailed item.

The screenshot displays the OLISS Web interface with several key components:

- Navigation Bar:** Includes "Workbench 62740", "Vessel AIS", and "Find".
- Waiting Task (134):** A row of buttons for "Ves. Cert. (1)", "Ves. Cert. (97)", "Ves. Cert.-No Attachment(2)", "CO. Cert. (2)", and "Cyc. Inspect(32)".
- Reliable Safety Responsibility:** A section with a "2. Switch to the 'Items Statistics' interface" instruction.
- Cost Statistics:** A tabbed interface with "Items Statistics" selected.
- Purchasing Data:** A bar chart showing various categories like "To Be Approved", "To Be Returned", "Inventory", etc.
- Crew Tracking:** A stacked bar chart showing crew status by vessel (e.g., 自测1号, ABLE, LINK, LINK-OCEAN 1).
- Maintenance Task Complete Rate:** A line chart showing completion rates for vessels like LINK-OCEAN 1.
- Crew Return Rate:** A bar chart comparing return rates for different vessels.
- Running Record Completion Rate Statistics:** A line chart showing completion rates for vessels like LINK-OCEAN 1, LINK-OCEAN 1A, and ABLE-SALOR.
- Safety Inspection Statistics:** A highlighted bar chart showing inspection results (NCR, Issue List, Equipment Disqualification, 安全隐患) for vessels like 自测1号, ABLE..., LINK..., and LINK....

Red annotations and arrows highlight the following steps:

1. Users log in to the OLISS Web side, they will default to enter the workbench
2. Switch to the "Items Statistics" interface
3. Find the "Safety Inspection Statistics" chart, click "Details" in the upper right corner to enter the safety inspection statistics interface

5 Items Selected | Type | 2025-06-01 - 2025-06-30 → 5. The default date is last month

Safety Inspection Statistics ⓘ

4. You can search for the target vessel through the filter bar

■ NCR ■ Issue List ■ Equipment Disqualification ■ 安全隱患

6. When the mouse hovers over a specific vessel, the detailed quantity of safety inspection results will automatically be displayed

7. Click the sorting button allows for ascending/descending sorting of each detailed item

Safety Inspection Statistics ⓘ

No.	Vessel	NCR	Issue List	Equipment Disqualification	安全隱患	Total
1	LINK OCEAN 1	5	4	2	0	11
2	Shore-based	2	0	0	0	2
