How to add hidden hazard investigation task (documents)

Users can log in to the website of OLISS, and operate in **"Vessel Management → Hidden Danger Screening → Hidden Hazard Inspection Task"** interface according to the following steps 1-6:

Hidden Hazard Inspection Task	Defects Info Sharing

Add	Export										

After the hidden danger investigation task list is submitted, it will become the "Executing. To Be Processed" status

No.	Report Name	Eqpt. Name	Inspection Object ▾	Inspection Type ▾	Dept. ▾	Inspection Time	Finish Date	Status ▾	Operation
