

How to add notices to favorites

Users can log in to the website of OLSaaS, and operate in "Notice Management" interface according to the following steps 1-3:

This screenshot shows the 'Notice Management' interface in the OLSaaS system. The top navigation bar includes 'Latest Notice', 'Maritime Notice', 'System Notice', 'Shipping News', and 'Notify'. A red circle highlights the 'Notify' button, with an annotation: "Notifies for the system and the SMS files updating are all in 'Notify'". On the left sidebar, the 'Notice Management' menu item is highlighted with a red arrow and the annotation: "1. Click 'Notice Management'". The main content area shows a list of notices with tabs for 'All', 'Unread', 'Favorite', and 'Commented'. A red arrow points to the 'Favorite' tab with the annotation: "Notice category can be switched". A specific notice titled '外部文件更新通知' is selected, showing its details and a 'Reply' form. A red arrow points to the 'Add Favorite' button with the annotation: "3. Click 'Add Favorite'".

This screenshot shows the 'Notice Management' interface after a notice has been added to favorites. The 'Favorite' tab is now selected in the notice list. A red arrow points to the 'Delete Favorite' button, with an annotation: "After adding the notice to favorites, the button will become 'Delete Favorite'". Another red arrow points to the 'Favorite' button in the notice list, with an annotation: "Meanwhile, you can click 'Favorite' in notice list interface to check all the notices you collected". The notice details for '外部文件更新通知' are visible, showing the 'Delete Favorites' button. The 'Reply' form is also present.
