

# How to download all attachments (document) of a notice with one click

After logging in to the OLISS Web, click to enter the Notice Management, click on the target notice, the notice content will be displayed on the right side, click "One-click Download" on the right side of "Attachment", and all attachments (Compressed Packet) of the notice can be downloaded. The name of the attachment compressed packet is Notice Attachment + Download Date

The screenshot illustrates the process of downloading all attachments of a notice in the OLISS Web. The interface is divided into a left sidebar, a central notice list, and a right notice detail view.

- Step 1:** In the left sidebar, the "Notice Management" button is highlighted with a red box and an arrow pointing to the text "1. Click 'Notice Management'".
- Step 2:** In the central notice list, a notice titled "测试一下" (Test it) is highlighted with a red box and an arrow pointing to the text "2. Click on the target notice".
- Step 3:** In the right notice detail view, the "Attachment:" section shows three image thumbnails. A red box highlights the "One-click Download" button next to the first attachment, with an arrow pointing to the text "3. Click 'One-click Download' on the right side of 'Attachment'".

The interface includes various navigation tabs at the top (Latest Notice, 知识库分享, 产品验收, 机海务通知, 海务通知, 安全公告, Notify) and a top right area with "Set Notice" and "Announcement Approval" buttons. The central notice list shows details for the selected notice, including its title, content, and a "Publish Date" of 2025-08-04 10:52. The right notice detail view shows the notice content and a list of attachments with their respective download and preview links.
