How to modify materials in basic data(documents)

Users log in to the OLISS Web side, and in the **"Setting→ Basic Data → Marine Stores"** interface, they can operate according to the following steps 1-5:

1、Click to enter the Marine Stores interface；

2、Target materials can be found by filtering criteria；

3、After finding the target marine, click "Edit"；

4、Fill in the relevant information (with * required)；

5、Click "Submit"

Note:

1. It is not allowed to modify the data quoted from the standard material library.

2. After the used material data is modified, the procurement, inventory and other information associated with it will change accordingly. Please modify it cautiously.
