

How to Add Role Authority (Document)

Log in to the OLISS Web side, and you can perform operations according to the following steps 1-5 on the Settings → Role Authority interface:

- 1、Click to enter the role authority interface;
- 2、Click to add;
- 3、Enter the role name and sequence number
- 4、Check the permissions for new roles
- 5、Click “Confirm”

The screenshot illustrates the process of adding role authority in the OLISS Web interface. It is divided into two main parts: the main application interface and a modal window for adding a new role.

Main Application Interface:

- The left sidebar shows the navigation menu. The 'Setting' menu is expanded, and 'Role Authority' is highlighted.
- The main area displays the 'Role Authority' management interface. A yellow box highlights the 'Add' button, with an arrow pointing to it labeled '2. Click to add'.
- A table lists existing roles with columns for 'No.', 'Role Name', and 'Sequence No.'.

Add Role Authority Modal Window:

- The modal window is titled 'Add Role Authority' and contains input fields for 'Role Name' and 'Sequence No.', both with placeholder text 'Please enter...'. A red box highlights these fields, with an arrow pointing to them labeled '3. Enter the role name and sequence number'.
- Below the input fields is a 'Menu permissions:' section with a tree view of system menus. The 'Add' button in the 'Crew Info' section is circled in red, with an arrow pointing to it labeled '4. Check the permissions for new roles'.
- At the bottom right of the modal, there is a 'Confirm' button (circled in red) and a 'Cancel' button. An arrow points to the 'Confirm' button with the label '5. Click "Confirm"'. The 'Confirm' button is highlighted in blue.
