Workflow *

Please select

→ Note: You need to set the workflow first. After setting, just select here

5. Complete the relevant information. The item marked with * is required.

6. Click "Confirm", the inspection plan will be set successfully

Confirm | Cancel

Note:

According to the inspection plan, the corresponding periodic inspection task will be displayed in Oil Detection interface, as shown below:

- Maintenance Management
- Oil Inspection
- Repair Management
- Stock Management
- Purchasing Management
- Vessel Service
- Expense Management
- Budget Management
- Voyage Number Management
- Vessel Report
- Patrol Inspection
- SMS Management
- Customs Affairs Management

Oil Inspection

The corresponding inspection task will be displayed in Oil Detection interface
