

Web 端如何查看岸基备件库存（文档）

用户登录互海通 Web 端，在“库存管理-岸基库存”界面点击“备件库存”（步骤 1），下方会出现所有有库存的设备列表；点击设备，下方会出现所有有备件的部件（步骤 2），同时右侧跳出的界面为该部件详情及备件列表详情。在备件列表标题可按照备件名称、型号等关键字检索某个精准备件的当前库存（步骤 3）。

The screenshot illustrates the steps to view spare parts inventory on the web platform. The interface is divided into a sidebar menu on the left and a main content area on the right. The main content area has three tabs: '备件库存' (Spare Parts Inventory), '物料库存' (Material Inventory), and '油料库存' (Fuel Inventory). The '备件库存' tab is selected, showing a list of equipment. A red box highlights the '备件库存' link in the sidebar, with an arrow pointing to the '备件库存' tab, labeled '1、依次点击进入备件库存界面'. Another red box highlights the '柴油机构' (Diesel Engine) item in the list, with an arrow pointing to the '设备部件详情' (Equipment Part Details) section, labeled '2、所有有库存的设备都会显示。点击设备，所有有备件的部件都会显示，同时右侧跳出该部件及其备件的列表详情'. A third red box highlights the '备件名称' (Part Name) and '零件代号' (Part Code) columns in the '备件库存列表' (Spare Parts Inventory List) table, with an arrow pointing to the search bar, labeled '3、可根据备件名称、型号检索'. The '当前库存' (Current Inventory) column in the table is also highlighted, with an arrow pointing to it, labeled '可查看当前库存'. The table shows two rows of inventory data.

位置	零件名称	零件代号	部门	计量单位	安全库存	当前库存	存放位置
0	柴油机构	230.303.00	其他部门	件	0	1	
2	内六角圆柱头螺钉	GB70-M6*50-8.8级	其他部门	件	0	3
