Note:

1.Voyage Oil Consumption Report is a summary report based on the oil consumed during the whole voyage.Users can create a draft report first, that is, click "Save" in the "Create" interface and modify the relevant data after the end of the voyage and then submit the report.

2.After the report is submitted, it will be associated with the inventory (the consumed inventory

will be deducted accordingly) and the corresponding stock-out list will be generated (View in the "Stock Management - Stock-out Management" Interface).
