

How to associate equipment information with components or spare parts

Users can log in to the website of OLSaaS, and operate in "Vessel Management → Equipment List" interface according to the following steps 1-7:

Equipment List

No.	Eqpt Name	Subsystem	Eqpt No.	Eqpt Type	Equipment Level	Manufacture	Manufacture Date	Equipment Propo...	Operation
1	甲机空压机	Starting Air System	00009						Edit Delete
2	应急空压机	Starting Air System	AS-0102-000-002						Edit Delete
3	主空压机	Starting Air System	AS-0102-152-001						Edit Delete
4	空气干燥器	Control Air System	AS-0207-000-001						Edit Delete

Edit

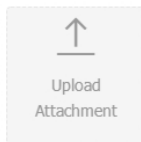

Main System: Air System **Subsystem:** Starting Air System **Group:** Main Air Compressor Unit

Eqpt No.* AS-0102-152-001 **Eqpt Name*** 主空压机 **Manufacture**

Eqpt Type **Equipment Level** **Drawing No.**

Manufacture Date **Factory No.** **Equipment Property**

Remarks

The size of a single uploaded file cannot exceed 1GB.

Add Related Equipment ← 4. Click "Add Related Equipment"

Select Related Equipment

Eqpt Name	Equipment Manufacture	Eqpt Type	Component Name	Component Code	Spares Name	
Spars Type	Valid	Search	Clear	5. Search the equipment according to the conditions.		
<input type="checkbox"/>	Equipment Name On Vessel	Equipment Manufacture	Eqpt Type	Component Code	Component Name	Is Valid
<input type="checkbox"/>	泵	汉姆沃斯	2C150 VIB2		自吸离心海水冷却泵	Valid
<input checked="" type="checkbox"/>	柴油机	Mak	M20		齿轮润滑油喷嘴	Valid
<input type="checkbox"/>	供油单元	江苏巨能	JSJN-KK		供油单元其他备件	Valid

7. Click "Submit" → **Submit**
