# How to deal with the rejected Voyage Work Report (document)

Users log in to the OLISS Web side, enter the workbench interface by default, click on "Voyage Report" in the waiting task, enter the voyage work report interface, click on any position of the target item that has been returned, and can view the details of the voyage work report. Click "Edit" on the right to modify the relevant information of the deck department and the engine department, such as Eqpt. Conditions, Staff Conditions, main task of this voyage, and shore-based support projects (with * required). If there are remarks or attachments, they can be supplemented. After the modification is completed, the department without submission permission clicks "Save", and the department with submission permission can click "Submit" again.

1、Users log in to the OLISS Web side, enter the workbench interface by default, click "Voyage Report" in the waiting task

2、Click on any position of the target item that has been returned, and can view the details of the voyage work report, click "Edit"
