

## How to set "Min Safety Manning"

Users can log in to the website of OLSaaS, and operate in "Crew Management→Crew Arrgt" interface according to the following steps 1-3:

The screenshot shows the OLSaaS web interface. On the left sidebar, 'Crew Management' is highlighted with a red box and an arrow pointing to the 'Crew Arrangement' option, which is also highlighted with a red box. A red arrow points from the 'Crew Arrangement' option to the 'Crew Arrgt' tab in the main content area. In the main content area, the 'Configuration' button is highlighted with a red box, and a red arrow points to the 'Minimum Safety Manning' option in the configuration dropdown menu. The interface also shows vessel information for '长胜号' and '前进号'.

1. Click in turn to enter crew arrangement interface.

2. Click on "Configuration" and select "Min Safety Manning"

### Minimum Safety Manning

Position	Quantity
Master	<input type="text" value="1"/>
Apprentice Master	<input type="text" value="1"/>
Chief Officer	<input type="text" value="1"/>
Second Officer	<input type="text" value="1"/>
Third Officer	<input type="text" value="1"/>
3RD Engineer	<input type="text" value="1"/>
Engineer	<input type="text" value="1"/>

3. Fill in the corresponding quantity next to the relevant rank, and the sum of the "Update" quantities is the quantity of "Min Safety Manning".
