Planned Maintenance Date: 2018-02-08   **Last Maintenance Date:** 2018-12-29   **Old Vessel Identification:** No

Maintenance Item: 水泵清洗   **Status:** Executing

Maintenance Request:
Delay Maintenance Date *

    Please select

Maintenance Delay Reason *

    Please enter

Please enter maintenance delay reason.

Quick phrase: 忘记了 维修中 检查，未启动 信号不好，好了会及时维护   Edit

Upload

After clicking "Delay Request" , you need to select the delay maintenance date and fill in the maintenance delay reason(with * required), upload attachments as needed, and finally operate "Submit"   Submit   Cancel

Next Step:

After the maintenance task is completed, the maintenance sheet will become "Accepting" according to the approval process node, and be transferred to the acceptance personnel workbench.
