How to quickly view overdue projects and delay request projects (Document)

1.Overview of Overdue Projects

Users log in to the OLISS web side and click "Maintenance→Monthly Maintenance" in order the enter the monthly maintenance interface, click "More" and select "Overview of Overdue Projects" sequentially to enter the Overview of Overdue Projects interface. This interface displays all overdue and unfinished maintenance tasks, as well as overdue tasks that have been returned, within the user's ship permissions.

Requests for delay are marked in red. By hovering the mouse over the detailed identifier, users can click to view the details of the delay request.
