

## Intelligent warning (document) during the approval of web side inquiry scheme

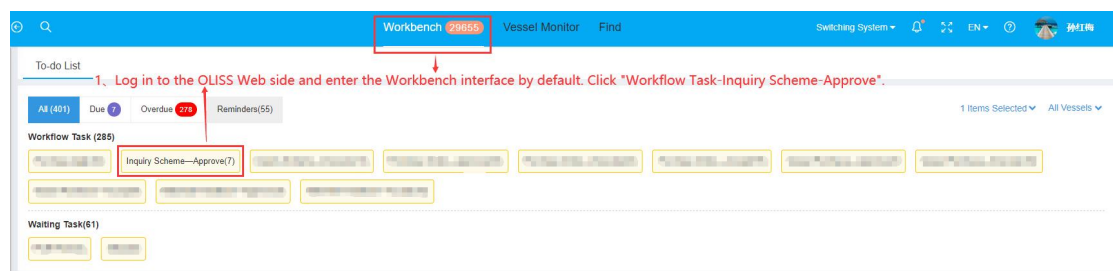

Purchasing personnel receive quotations from suppliers, select high-quality solutions based on cost-effectiveness, and submit them for approval. According to the process nodes, the task of inquiry scheme for approval will appear on the workbench-workflow task interface for personnel with approval authority.

In the inquiry scheme approval interface, when one of the following four situations occurs, the system will display an intelligent warning reminder:

1. The ship has repeated purchase items within 3 months;
2. The current selected price is higher than the lowest transaction price within one year;
3. The current selected supplier is not the lowest quoted price in this supplier;
4. The current selected supplier is not the one with the most cooperation.

Based on this, the approver can comprehensively consider the approval, modification, or rejection of this inquiry based on the intelligent data analysis situation.

Users can log in to the OLISS Web side, go to the "Workbench -> Workflow Task -> Inquiry Scheme - Approve" interface, and refer to the following steps 1-3 for operation:

← Inquiry Scheme—Approve

2. When there is a lot of documentation, you can search for the target documentation by keywords or filter bar

Please select creation date: Supplier Name: Keywords Searching: Search Reset
