

How to view and modify Vessel Management (documents) on the Web side

Log in to the OLISS Web side, and on the Vessel Management - Vessel Information page, you can perform the following steps 1-3:

The screenshot shows the OLISS Vessel Management interface. The top navigation bar includes the company logo '互海科技', a search icon, and user information 'Workbench 28627 Vessel Monitor Find'. The main content area is titled 'Vessel Info.' and features a search bar with the text 'Please enter'. Below the search bar, a list of vessels is displayed, including 'LINK OCEAN 1' (Liquefied Gas Carrier | 67301 ton | 近海), 'LINK OCEAN 14' (Bulk carrier | 56968 ton | 远洋), and 'ABLE SAILOR' (Chemical Tank | 无限航区). The 'LINK OCEAN 1' vessel is selected, and its details are shown on the right. The details include tabs for 'Basic Info', 'Construction Info', 'Main Parameter', 'Tonnage', and 'Contact Methods'. The 'Basic Info' tab is active, showing fields for 'Vessel Name' (互海1号), 'MMSI' (412590410), 'Vessel Type' (Liquefied Gas Carrier), 'IMO' (2536743111), 'Main Types of Cargo To Be Transported', 'Endurance' (1505 nautical mile), 'Trade Type(Domestic/Foreign)' (Domestic Trade), 'No.(The Smaller,The Closer): 1', 'Vessel Photos', 'Vessel Name(EN)' (LINK OCEAN 1), 'Nationality' (中国), 'Former Name', 'Ship Identification No.' (CN200163954117), 'Call Sign' (BUNSA), 'Ship Complement' (22 Persons), 'Carrying Capacity of Lifeboat', and 'Minimum Manning'. At the bottom of the details panel, there are 'Edit', 'Off', and 'Export' buttons. Red annotations and arrows point to these elements, providing step-by-step instructions.

1. Click to enter the "Vessel Info." interface

2. Click on the target Vessel to bring up the Vessel details interface on the right

3. Click to edit and modify the Vessel information

Enter the Vessel name to quickly find the target Vessel
