

How to add "Crew Work Injury"

Users can log in to the website of OLSaaS, and operate in "Crew Management→Crew Work Injury" interface according to the following steps 1-3:

The screenshot displays the OLSaaS interface for managing crew work injuries. The left sidebar shows the navigation menu with 'Crew Management' and 'Crew Injury' highlighted. The main area shows a table of crew members with columns for No., Name, ID Card No., Vessel, Voyage No., and Injury Date. The 'Add' button is highlighted with a yellow box and an arrow pointing to it, with the text '2. Click "Add" and the right pop-up window appears.' The right side of the screen shows the 'Add Injury Info' form, which includes fields for Name, Vessel, Voyage No., Injury Date, Injury Details, Degree of Disability, Post-Processing Details, Alceddy Cost, Time of Indemnity, Process State, and Attachment. The 'Add Injury Info' form is also highlighted with a yellow box and an arrow pointing to it, with the text '3. Fill in the required information with * at least, and then click "Confirm".'

1. Click in turn to enter "Crew Work Injury" interface.
