

## How to update "Crew Return Type"

OLSaaS can automatically identify "Crew Return Type" and users can also change it according to their needs.

The change of crew return type can be operated in the following interfaces of Crew Arrgt/Crew Transfer module:

### 1. Crew Arrgt Record query interface:

The screenshot shows the 'Crew Arrgt Record' interface with a table of crew members. A 'Crew Return Condition' dialog box is open, allowing users to select a return type: 'Ex-colleague(Same Co.)', 'Ex-colleague(Same Ship)', or 'New colleague'. The 'Ex-colleague(Same Co.)' option is selected. The dialog also includes a 'Recent Work Situation' section with a date range and a 'View the Working Experience' link. A red arrow points to the dialog box with the text 'In this interface, "Crew Return Type" can be changed'. A yellow arrow points to a magnifying glass icon in the table with the text 'The above interface will pop-up after clicking'.

### 2. Operation of Crew Sign-on:

The screenshot shows the 'Crew Sign-on' interface. A 'Crew Return Condition' dialog box is open, allowing users to select a return type: 'Ex-colleague(Same Co.)', 'Ex-colleague(Same Ship)', or 'New colleague'. The 'Ex-colleague(Same Co.)' option is selected. A red box highlights the dialog box with the text 'During the operation of crew sign-on, the crew return type can be selected after the crew name is filled in'. A red arrow points to a magnifying glass icon in the table with the text 'Click this icon to quickly find the crew.'.

### 3. Add Crew Arrgt→Replacement Crew/Sign-on Crew Only→Fill in crew name:

The screenshot shows the 'Batch Crew Transfer' interface. A 'Crew Return Condition' dialog box is open, allowing users to select a return type: 'Ex-colleague(Same Co.)', 'Ex-colleague(Same Ship)', or 'New colleague'. The 'New colleague' option is selected. A red arrow points to the dialog box with the text 'In this interface, "Crew Return Type" can be changed'. A yellow arrow points to a magnifying glass icon in the table with the text 'The above interface will pop up after clicking the icon'.
