

# How to quickly enter drawing information (document)

When a vessel needs to use the same drawing information of a certain vessel, the source vessel drawing information can be quickly copied, that is, the "copy vessel" function.

Users can log in to the OLISS Web side and follow the steps 1-4 below in the "Vessel Management → Technical Files" interface:

2. The system defaults to entering the "Drawing" interface

1. Click to enter the "Technical Files" interface

3. Click on "Copy Ship"

No.	File No.	File Name	File Category	Attachment	Operation
1		审图意见回复			Edit   Delete
2		审图意见回复			Edit   Delete
3	WP17D155-001H	审图意见回复			Edit   Delete
4		审图意见回复			Edit   Delete

4. Select "Source Vessel" and "Target Vessel", then click "Confirm"
