

How to query the maintenance plan modification record and maintenance history

Users can log in to the website of OLSaaS, and operate in "Maintenance → Maintenance Management → Maintenance Plan of Year" interface according to the following steps 1-3:

The screenshot shows the 'Maintenance Plan of Year' interface. The left sidebar has 'Maintenance Management' expanded, with 'Maintenance Plan of Year' selected. The main area displays a table of maintenance items with columns: Maint, Equipme, Maintenance..., Maintenance Item, Maintenance Deman, Dept., P.I.C., Running..., Last Check..., Jul / All, Aug / All, Sept / All, Oct / All, Nov / All, Dec / All. Annotations include: 1. Click in turn to enter the interface of Maintenance Plan of Year (pointing to the sidebar); 2. Enter key information through the filter box to find the target maintenance items. (pointing to the filter bar); 3. Click anywhere of the target maintenance item to check detailed information (pointing to a row in the table).
