How to view and export vessel spare parts stock (documents) on the web side

Check the inventory of ship spare parts

Users log in to the OLISS Web side, click to enter the "Stock Management \rightarrow Vessel Stock \rightarrow Spare Parts Stock" interface, search for the target item by ship name, department, click on a component of a certain equipment, and the details of the component on the right will pop up. Users can quickly find the target spare parts through the filter bar, or view the inventory of specific spare parts in the current stock.
