## How to Batch Authorization role authority (document)

The user logs in to the OLISS Web side, and then clicks "Setting → Role Authority", clicks "Batch Authorization" on the Role Authority interface, and the drop-down menu can select "Add Permission /Remove Permission" according to requirements:

If you choose "Add Permission", a pop-up window for adding permissions will appear on the right side. After checking all or multiple authorized roles and menu permissions as needed, click "Confirm" in the bottom right corner to complete the addition of permissions for the relevant roles.

If you choose "Remove Permission", the Remove Permissions pop-up window on the right will appear: After checking all or multiple authorized roles and menu permissions as needed, click "Confirm" in the bottom right corner to complete the removal of permissions for the relevant roles.
