## How to approve repair application

After the repair application is submitted for approval, it will be transferred to the workbench of the person with approval authority according to the workflow.

## Next Step:

- 1. The approved repair application will be included in the repair plan. The task of "Repair Plan(To Be Arranged)" will appear in the "Workbench-Waiting Task" of authorized personnel.
- 2. The rejected repair applications will be back to the the list of repair applications. Users can copy the original application form according to their needs, modify it and re-submit it for approval.
