

How to add crew insurance (document)

Users log in to the OLISS Web side and click to enter in order **"Crew Cost → Crew Insurance"** The interface defaults to the "Five Insurances and One Fund Payment Base " interface. The target crew can be retrieved through keywords or filtering columns, click "Add", and jump to the new insurance interface. This interface displays the crew information in the "Ungenerated" state by default. Check the payment base of the target crew, Five Insurances and One Fund Payment Base, and the system defaults to "Follow system configuration" or switch to "According to the contract". (Here, "System configuration" refers to the settings in the "Crew insurance → Five Insurances and One Fund Payment Base→ Configure" interface; "According to contract " refers to: Set the "Five Insurances and One Fund Payment Base " in the crew contract interface. Select "Pay/Non-Payment" for major illness medical care according to the actual situation. After setting, click "Confirm" to complete the addition of crew insurance.
