## How to set up incident type on the web side (document)

Users can log in to the OLISS Web side, click to enter the **"Vessel Incident Records** → **Incident Type Setting"** interface in turn, click "Add", jump out of the pop-up window on the right, in the pop-up window, fill in incident type and remarks (with \* required), the approval process is closed by default (button gray), and it will turn blue after clicking Enable.(Users can set approval processes according to actual needs select / add approval roles, CC roles), click "Confirm". After adding it, you can edit and off.
